	Enterprise Resource Planning (ERP)
	Warehouse Management System (WMS)
	Sustainability Reporting (carbon footprint & product traceability)
	Transport Management System (incl. route scheduling & optimization)
	Shipment & Transport Execution Platforms (incl. Freight Management)
	Global Trade Management (incl. customs & duty regulations)
	Supply Chain Network Design (incl. MILP solvers)
	Production Planning & Scheduling (incl. finite capacity & heuristic solvers)
	Forecasting, Demand & Inventory Planning
	Sales & Operations Planning (incl. workflow & scenario planning)
	Manufacturing Execution System (incl. workflow & scenario planning)
	Order Management System (incl. omni-channel optimization)
	Real-time Transport Visibility (incl. dynamic Expected Time of Arrival)
	E-Procurement (incl. purchase-to-pay, excl. logistics tendering)
	Supply Chain Risk Management (incl. contingency planning)
